### Course Description

A number of internal and external factors are driving significant change in the tax field: technology, changing expectations, changing laws. This course is designed for all practicing tax professionals. This course covers what is leading the change and how the change may impact the tax function. Leading tax experts will share their outlook on how companies are responding to and plan to take advantage of the changes and the potential risks. Attendees will learn about tools that may augment or event replace their function and how tax professionals can prepare for these changes so that they do not become obsolete.

### CPE & CLE Compliance

Future Tax Leaders' CPE and CLE courses are designed to comply with Colorado State Board of Accountancy and NASBA CPE and Colorado Supreme Court CLE standards and the provider requirements outlined in sections 88.1 and 88.2 of the California Board of Accountancy Regulations. CPE and CLE courses are based on 50-minute credit hours. Participants must attend at least 50 minutes of a particular course to receive one (1) credit in that course. Participants are encouraged to confirm eligibility compliance with their jurisdiction. CLE hours represent the hours applied for and anticipated.
